Genie Gateway integrates telecommunications, electronic banking, cable TV, and high speed internet, into a one unified solution.

Genie Gateway is a forward-looking unified communications and payment processing platform, **blending the products and services needed to operate a business, traditionally purchased from several vendors, into one seamless service.**

Genie Gateway is aimed squarely at businesses and individuals who want a fully rounded presence on the internet and by phone, without the cost and complexity of the build-it-yourself approach.

Genie Gateway is an interactive multimedia communications hub, featuring a digital buffet of unified solutions; combining the benefits of having a website fully accessible from any internet enabled device, with voice, text, video, document messaging, virtual fax, group communications, **including an online store, a shopping cart with a virtual point of sale, and a CashBox with a GenieChecking account**, plus the most robust Virtual Office, as one unified solution.

Buyers NO longer need to provide their credit card, or bank account information, to make a payment. Repeat customers ONLY need their cell number, and "Click to OK" their purchase on their cell phone.
